We are an internationally renowned industrial company headquartered in Cressier near Neuchâtel. We develop, design, and manufacture centrifugal pumps and control valves that are used in demanding sectors such as industry, chemicals, and wastewater technology.

To strengthen our sales department, Emile Egger & Cie SA is looking for an:

## **Inside Sales Engineer**

*Technology, customer contact, and responsibility — all in one job*

In this exciting role, you will be the central interface between our customers, the sales force, and the technical departments. You will maintain an overview from the initial customer contact to the final order processing – and actively contribute to finding the best solutions for demanding applications.

### **Your responsibilities:**

- Receive and review technical customer inquiries and propose initial solutions
- Select suitable pump solutions and design them technically — always keeping customer needs in mind
- Prepare well-thought-out, economically calculated quotations — precise and understandable
- Compile relevant quotation documents such as data sheets, drawings, and characteristic curves
- Coordinate closely with the sales force – sometimes in direct customer meetings
- Take responsibility for the entire order process, including internal coordination and queries
- Maintain customer data in the CRM system and keep it up to date
- Think ahead and help shape the future: actively contribute ideas for improving our sales processes

### **Your profile:**

- An engineering degree (e.g., mechanical engineering, process engineering) or studies with a technical background
- Experience in technical sales or project business — **career starters are also welcome**
- Confident use of CRM systems and MS Office (especially Excel and Word)
- Very good written and spoken German
- Good English skills, French skills an advantage

### **Your personality:**

- Independent, structured, and solution-oriented approach to work
- High level of commitment, initiative, and sense of responsibility
- Strong communication skills, ability to work in a team, and assertiveness

If we have sparked your interest, we look forward to receiving your complete application ( letter, CV, diploma, and work certificates).
