Emile Egger & Cie SA is a medium-sized, independent and family owned Swiss industrial enterprise specialized in designing and manufacturing of pumps and Iris diaphragm control valves.

The resource, who is part of the Egger group's « IT Infrastructure » team, will have the dual role of supporting the local needs of the Cressier company site and maintaining the group's IT infrastructure at the highest levels of service quality and stability. To reinforce our sales team at our Swiss Headquarter, we are looking for a skilled and motivated :

IT System Administrator - 100% (m/w)

Responsibilities :

- Administration of Windows servers / virtualized servers
- Maintenance and improvement of users' devices (laptops, desktops, mobiles, ...)
- Helpdesk
- Network management (DNS, Switches, VLANs, firewalls, VPN)
- AD / Exchange management, email management
- Users' training
- Specific IT projects
- Data migration

Technical skills :

- Excellent knowledge of network and security management
- Excellent skills of virtualization technologies and in the administration of a Windows data center (vSphere)
- Proficiency of Microsoft business solutions at system level (MSSQL, AD, IIS, Exchange)
- Good knowledge of SQL language
- Basic skills of Business Applications

Profile :

- Bachelor degree in Informatics or similar
- 4-5 years of experience in the same role in structured companies
- Fluent in French and English (both spoken and written); Italian and German are a plus
- Sense of responsibility, organization and autonomy
- Proved capability of working in a team
- Availability for trips within Egger group subsidiaries
- Availability for emergency assistance outside standard working time

Workplace : Cressier / NE

Start of employment : Immediately or to be agreed

We look forward to receiving your application containing the usual documents at rh@eggerpumps.com
