

**WE CORDIALLY INVITE YOU.**

SWISS ENGINEERED PUMPS SINCE 1947

**EGGER**

It all started 70 years ago in the autumn of 1947, when Mr. Emile Egger decided to establish his pump factory in Cressier, Neuchâtel. Today we can look back at a successful and exciting company history and forward to a promising future. As part of the 70<sup>th</sup> anniversary celebration, we would like to welcome you to our “pump seminar” in Neuchâtel, Switzerland. You will have the choice between a “wastewater seminar” with a focus on energy saving and low maintenance operation and an “industry seminar”

We are looking forward to welcoming you.

## **Friday, 8<sup>th</sup> September 2017 – Industry seminar**

Greeting of the participants, short presentation on the 70<sup>th</sup> anniversary of Egger

**Special pump hydraulics for multi-phase pumping**

**Mining and environmental protection - a requirement for pump technology**

**Creating Value from Waste Gases**

**The pumps deserve a better life! Choice and installation, customized maintenance strategy.  
Cantilever design**

**Investing for Growth**

**Process optimization in filter presses. Our experience in a vegetable oil refinery**
